In order for students to succeed in school and the community, it is essential that school and families work together. Home support is vital in helping Anderson students meet successful behavior expectations outlined in the Shield of Success and Student Code of Conduct.

Introduction

We promote a safe, supportive, and orderly learning environment. We encourage appropriate behaviors by teaching, guiding, directing, and providing opportunities to practice and succeed at making responsible, effective choices that promote academic and social skill sets.

School safety and academic success are created and strengthened when students are effectively and actively engaged in their learning. These outcomes are accelerated when positive relationships exist between students and school staff, and when families, communities, and school staff work collaboratively to support positive student outcomes.

Students have rights and privileges as well as responsibilities. While the school system has an obligation to provide an education for all students, we have set high standards for students to conduct themselves in a way that is respectful and helps to build a climate essential for learning. Students can expect school staff to reinforce positive behaviors.

This handbook outlines policies and procedures that promote a school atmosphere of excellence in teaching and learning.

The purpose of the handbook is:

1. Outline district policies and procedures and provide a resource guide for students and families regarding school practices.
2. To describe the Academic Process, Student Code of Conduct, and consequences that may be enforced upon violation of policies.
3. To illustrate expected student behaviors.

Anderson School district policies and practices promote **respect** through positive behavior choices, character development, and development of self-control.

Developing positive and effective student behaviors requires collaborative efforts from school, home, and community organizations and agencies.

Anderson School cultivates a learning climate focused on sustaining strategies proposed for achieving maximum academic success and positive social-emotional learning outcomes. This is achieved through diverse practices, with emphasis on Positive Behavioral Intervention & Supports (PBIS) and Response to Interventions (RtI). PBIS is a proactive approach to school-wide discipline that focuses on creating a positive environment through the practice of expected behaviors in the school community. PBIS uses a collaborative team approach to analyze data and respond to discipline-related behavioral patterns. RtI is a collaborative team approach that utilizes academic data to support and develop interventions relevant to student success.

The focus of this handbook is to guide students and families towards school climate success. The rules and expectations outlined have been developed so a combination of consistent and fair strategies will be implemented within the school community.

As part of Anderson's initiative to create a more proactive environment in the school community, please understand student attendance is extremely important and directly associated with state funding.

Attendance is a very important part of your child's school career, education funding, and your school's report card. At Anderson, we are serious about teaching students and families how to practice a foundation for school success. A major part of that success starts with attending school daily, and on time. Good school attendance is a character trait that helps build positive citizenship skills in students, families, staff, and community.

If you find your family struggling with getting your student to school daily or on time, please contact the School Office.

We are committed to helping students and families with school success!!!

Anderson Public School Internet Safety Policy

ANDERSON PUBLIC SCHOOL INTERNET SAFETY POLICY

The following is a contract between the student parent or guardian, and the school system. Please read carefully before signing.

With access to such vast storehouses of information and instant communication with millions of people from all over the world, material will be available that may not be considered to be of educational value by the District or which is inappropriate for distribution to children. The District has taken available precautions, including but not limited to enforcing the use of filters that block access to obscenity, child pornography and other materials harmful to minors. However, on a global network, it is impossible to control all material and an industrious user may obtain access to inappropriate information or material. Subject to staff supervision, technology measures may be disabled for adults or, in the case of minors, minimized only for bona fide research or other lawful purposes. The District firmly believes that the value of the information and interaction available on the Internet far outweighs the possibility that students and employees may procure material which is not consistent with our educational goals.

It is all staff members' responsibility to educate students about appropriate online behavior, including interactions with other individuals on social networking sites/chat rooms, and cyber bullying awareness and response. This may be done in a variety of ways, such as short training sessions once a year, one-on-one education with individual students, and/or via educational handouts. It is also the responsibility of all staff members to monitor students' online activity for appropriate behavior.

As a student I agree to the following terms and conditions:

- I will not use the Internet for transmission of any materials in violation any federal or state regulations. Transmission of copyrighted material threatening or obscene materials, materials protected by trade secrets, product advertisement or political lobbying is also prohibited.
- I will refrain from using profanity and vulgarities on the Internet. I will not use the Internet for illegal activities.
- I will not give my home address, location of my school, phone number or any personal information about myself or any other student or school personnel to anyone via the Internet.
- I understand that use of e-mail or any other communications over the Internet are not private; any messages related to or in support of illegal activities may be reported to authorities.
- I understand that I am prohibited from conducting any actions that may endanger my safety, or the safety of other students/staff members while using any component of the school's internet access and/or network (email, chat rooms, etc.).
- I will not use the Internet in a way that would disrupt the use of the network by others.
- I will respect the trademark and copyrights of materials on the Internet and assume anything accessed via the network is private property.
- The school system and service provider are not responsible for any damages or losses resulting from using Internet services or information obtained from the Internet.
- If you discover any way to access unauthorized information or defeat any security measures you must inform the lab teacher immediately. You must not share any unauthorized information with any other user.
- Vandalism of any kind is prohibited.
- These terms and conditions shall be governed and interpreted in accordance with the laws of the state and the United States of America.
- I understand access to the Internet through **ANDERSON PUBLIC SCHOOL** is a privilege. School authorities can deny any student access to the Internet at any time, and their decisions are final.
- Additional information about policies EFBCA and EFBCA-R can be requested from the Superintendent or Principal.

My instructor/school sponsor has explained the terms and conditions for using the Internet to me and I agree to abide by them.

Trojan PRIDE Behavior Matrix

A behavior matrix is a simple, visual tool that clearly outlines school or classroom expectations in different settings (like the hallway, cafeteria, or playground). These matrices are important because they help students understand exactly what positive behavior looks like in each area, making expectations consistent and easy to follow.

They are effective because they:

- Promote a positive and safe learning environment
- Help reduce confusion and misbehavior
- Support students in making good choices
- Encourage accountability and consistency across all staff and settings

By teaching and reinforcing expected behaviors, behavior matrices help all students succeed—academically, socially, and emotionally.

Student Academics Process, Programs, and Policy

Cellular Devices

Anderson Public School will allow students to have cellular devices (not limited to: cell phones, smart watches, smart headphones, and smart glasses) on campus. However, the device must be turned off when they arrive in the morning and kept in their backpack until 3:15. Students will be allowed to turn their device on when they are leaving campus at the end of the day. There will be NO devices out in the building throughout the day or on the playground/common areas where students gather. If a student is seen with their device throughout the day it will be taken and kept in the office. The parent will be notified and the student can have the device back at 3:30. Repeated episodes will result in a conference between the parent, student, and school administration. We realize parents may need to contact or touch base with their child if an emergency arises during the day. Parents are asked to contact the school at 918-245-0289 and leave a message. The office will make sure information is shared with the child. If it is an extreme emergency a parent can call and the student can come to the office to receive a call.

Please review [State Bill 139](#) for more information on state law forbidding cellular devices.

Retention Process

Some students are retained at their present grade level each year. This is a cooperative process carried on between the school and parents/guardians. Efforts are made to notify parents early in the second semester when retaining is imminent. By Oklahoma Law, the Superintendent has the authority to determine grade placement.

Gifted and Talented Program

The Anderson Gifted and Talented program serves grades 3 through 8. Student participants are served through both differentiated curriculum in the classroom and through learning laboratory programs. Student participants must qualify for the program by meeting certain criteria in compliance with Oklahoma State Law. An advocacy procedure has been developed which permits teachers and parents to recommend students for further evaluation and possible placement in the program. You are encouraged to contact the school Superintendent, Principal, or GT Coordinator if you have questions about the program.

Homebound Program

Homebound services are for children who are unable to attend classes due to physical illness (surgery, etc.) and who expect at least a two-week, consecutive absence.

Special Services Program

The mission of the Special Services/Special Education Program is to individualize the instruction and support of special education, based on specific identified needs for our students on an Individualized Education Plan (IEP) in order for them to achieve at their highest level. The focus of special education instruction is to create IEPs that drive our services. Anderson Public School believes in the philosophy of inclusion and follows the least restrictive environment guidelines recommended by the State Department of Education. A spectrum of services inside and outside the general education classroom help to bridge the learning gaps for special education students while building a strong sense of community. Student Academics Progress, Programs, and Policy

Evaluation of Academic Progress

1. The school year is divided into four nine-week grading periods for which a progress report is made to parents. A student must be enrolled a minimum of 50% to receive a report for that nine-week period.
2. Progress reports will be sent to the home at the fifth week of each nine weeks. Special reports may be sent when a teacher feels a student is making unusually slow progress in a particular subject.
3. All students receive a report card every nine-weeks. The following evaluation marks are used for grades Pre-K, K, 1st and 2nd:

- + Skill Mastery
- / Presently developing skill
- Area of concern
- [] Not evaluated at this time

1. The following is the grading scale used by grades 3 through 8:

90-100	A - Superior
80-89	B - Above Average
70-79	C - Average
60-69	D - Below Average
59 and below	F - Unsatisfactory

Proficiency Based Progress

Proficiency based promotion is a system which awards credit for student's knowledge in the core curriculum areas of mathematics, language arts, social studies, and science through an assessment process. The following outlines the procedures that will be used to allow students the opportunity to progress through the program.

1. All students in grades 1-8 enrolled at Anderson School are eligible for the Proficiency Based Program.
2. Upon request of a student, parent, guardian, or educator, a student will be given the opportunity to demonstrate proficiency in one or more of the core curriculum areas.
3. In order for a student to participate in the program, a student must perform at 97% or greater level on a Test of Basic Skills.
4. Students demonstrating proficiency in one or more curriculum areas will be given credit for their learning and will be given the opportunity to advance to the next level of study in the appropriate curriculum areas.
5. Students not demonstrating proficiency will be allowed to try again during the next assessment period.
6. Students may advance one or more levels in the core curriculum areas. However, they must progress through a curriculum areas in sequential manner.

Student Academics Homework Policy

Please discuss with your student's classroom teacher any homework or make-up work preferences specific to your students' class.

1. Homework is used for reinforcement, make-up, and/or completion of unfinished classroom assignments.
2. A student should strive to work hard at school; therefore, less homework will be necessary, and the student will have more time for extracurricular activities and family involvement.
3. Homework is the student's responsibility. Students may share this work with their parents and seek help when needed, but should be completed by the student.
4. All assignments should be carefully and neatly prepared and turned in on schedule.
5. Absentee homework: When you are absent for a length of time, please call the school and speak to the Student Information Secretary and email each teacher. Teachers will have your assignments ready at the office to be picked up.
6. Planned absences require planned make up work. Assignments should be gathered before you leave for your event, and the work is due the day you return to school.
7. Students who are absent will have the same number of days to make-up work as days they were absent. It is the student's responsibility to make arrangements for any make-up work upon returning to school.

Student and Family Rights **FERPA and IDEA**

Family Education Rights and Privacy Act (FERPA) of 1974 Statement of Rights

Parents and eligible students have the following rights under the Family Educational Rights and Privacy Act

1. The right to inspect and review a student's education record.
2. The right to exercise a limited control over other people's access to the student's education record.
3. The right to seek to correct the student's education record; in a hearing if necessary.
4. The right to report violations of the FERPA to the Department of Health, Education, and Welfare.
5. The right to be informed about FERPA rights.

All rights and protections five parents under the FERPA and this policy transfer to the student when he or she reaches age 18 or enrolls in a post-secondary school. The student then becomes and "eligible student".

The Uninterrupted Scholars Act (Public Law 112-278) was enacted on January 14, 2013. The Act amends FERPA to permit educational agencies and institutions to disclose a student's education records, without parental consent, to a caseworker or other representative of a State or local child welfare agency or tribal organization authorized to access a student's case plan "when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student."

A copy of the FERPA policy is available for review in the Superintendent's office.

All visitations must be scheduled and approved by the Superintendent. To minimize disruption, a parent or legal guardian may visit classrooms under these circumstances:

- To attend a class function such as a party or play
- To have a conference with the teacher in the classroom when other students are not present

To make classroom observations during instruction time, requests must be made in writing and delivered to the Superintendent at least forty-eight hours prior to visiting the classroom. All observations will be at the Superintendent's discretion, and if allowed, must occur within the following guidelines.

1. An administrator must accompany the parent or guardian for a period not to exceed twenty minutes.

All observations will be at the Superintendent's discretion, and if allowed, must occur with a confidentiality release from parents or legal guardians of other children in the classroom. This is required.

Student Information Conferences & General Information

Conferences

Communication between parents/guardians, the student, and teachers is encouraged. The proper communication procedure begins with **first** contacting your child's teacher. If a student wishes to see the principal, they may ask their teacher and a meeting will be scheduled. If a parents desires a conference, please call the Student Information Secretary at (918)245-0289 for an appointment.

Under no circumstances should a conference take place during a school day when a teacher is conducting class or supervising children on the playground. After school drop in conferences are discouraged. Conferences with teachers are scheduled by appointments made through the Student Information Secretary or by written consent of the classroom teacher.

Parent/Teacher Conferences are scheduled for the Fall and Spring of each school year. Please see the school calendar for exact dates.

Student Health Medications, Illness, and Head Lice

Medications at School

The school will dispense medication upon written request. If possible, parents are advised to give medication at home, and on a schedule other than during school hours. Otherwise, the following regulations must be followed:

1. An “Authorization to Administer Medication” form must be completed, signed, and on file in the school office.
2. Medication must be brought to school in the original container - both prescription and nonprescription medication with original labels intact. If medication is not properly labeled, it will not be given.
3. **PARENTS MUST SUPPLY ALL MEDICATION.** The school CANNOT supply anything. We strongly recommend that the parents deliver all medications to the office. This eliminates lost medication on the bus or in the classroom. It also protects the ones it is intended for. A medicine that helps one student can be extremely harmful to another. Students should not keep medication with them at the school for this reason.
4. All medication is kept in the office in a locked cabinet.

Illness at School

- Students with a temperature of 99 degrees or above must be sent home. Parents/guardians are asked to keep students who have elevated temperatures home **36 hours AFTER the temperature returns to normal without the aid of medication.**
- Students who vomit or have diarrhea while at school will be sent home, and should not return until they are **symptom-free for a minimum of 36 hours.**
- **Students who have a fever, vomit, or diarrhea during the previous evening or night should NOT be sent to school the next day.**
- Parents **MUST** provide transportation home for students who become ill at school promptly.

Head Lice Procedures

1. If you suspect your student has head lice, please contact the school to confirm it. Head lice are easily spread and will not disappear without the student being treated and all nits removed.
2. No student will be admitted to class who has lice, regardless of the number of treatments or measures that may have been taken.

Parent Involvement **Parent Volunteer Organization (PVO)**

Anderson School understands the importance of family involvement in a student's school career. Families are encouraged to get engaged in the school's PVO organization. The PVO meet regularly and assist with numerous school activities. The time spent and the funds raised by the volunteer organization go directly to benefit classroom, building, student, family, and community needs.

The following examples are activities that the PVO are involved in:

Classroom Volunteer Program:

Under the guidance of staff, daytime volunteers help in a variety of ways, such as laminating materials, making copies, and working with small groups of students needing extra drill work.

Luncheons:

Grandparents Day, Thanksgiving, and Christmas lunch periods will need volunteers to assist with cafeteria and playground duties.

Track and Field Day:

Assist in running events during Field Day.

Fundraisers:

Help is always needed for all fundraising events, such as Dances, Family Bingo Night, Santa Shop, Snack Days.

You are invited and encouraged to attend and join our PVO.

For more information, please contact PVO at pvo@andersontrojans.org.

Student and Family Rights **ESSA and School Board**

ESSA

Congress passed the Every Student Succeeds Act (ESSA) in December of 2015. It is the main law for K–12 public education in the United States, and it affects all students in public schools. It replaced No Child Left Behind.

The main purpose of ESSA is to make sure public schools provide a quality education for all kids. ESSA gives states more of a say in how schools account for student achievement. This includes the achievement of disadvantaged students. Under ESSA, states get to decide the education plans for their schools within a framework provided by the federal government. For more information on ESSA or to see the full law, go to:

**APPENDIX 2
STUDENT CONDUCT ON BUSES****TO:** Parents of Transported Students**FROM:** Anderson Board of Education

The school bus driver has a great responsibility. Each day the bus carries a "precious cargo" and the driver's only concern should be to see that all passengers are transported to and from school safely. Unfortunately, there are times when children (young and old) do things that cause the driver to be distracted from the job. This is dangerous and cannot be allowed. It is necessary therefore, that Student Conduct Rules and Regulations be in force and that they be followed without question. Parents must see that their child understands the importance of good behavior while riding a bus.

Riding a school bus is not a right but a privilege granted to those who are eligible and are able to abide by the rules and regulations. It is not right that a student be allowed to ride a school bus when the student continues to jeopardize the safety of others. The board of education realizes that a hardship may result in having to take your child to and from school but it is sometimes necessary.

Therefore, the school system must have parents sign an agreement that their child will abide by the rules and regulations. If the rules are broken, punishment will be administered on an increased scale. Students will be given three opportunities to correct their behavioral problems. Students will have a choice of three alternatives each time. 1) Not riding the bus; 2) In-school suspension; 3) Punishment befitting the offense (for example, writing on seats will result in having to clean bus seats). On the fourth offense, the student will have no choice: he/she will no longer be allowed to ride the bus. Suspension will be for the remainder of the semester or the school year. This applies only to students in grades 5 through 12. There will be no counseling with them. They have read the rules and you have gone over it with them. Punishment will be immediate, and by the principal of the respective school.

If a student shows an uncontrolled malicious disregard for the safety and well-being of the passengers and driver, it is possible that immediate suspension will occur without going through the above procedure.

The bus driver accepts the responsibility of getting your child to and from school safely. Therefore, what the driver observes and reports to the principal is final. The driver is not there to determine the right or wrong of one student in a dispute with another, but is there to report any misconduct or behavior that might interfere with the proper operation of the school bus.

For students in K through 4th grades, counseling will be provided for controlling discipline and conduct problems, with occasionally some punishment assessed after counseling fails. Only in very rare cases is it necessary to deny riding privileges to students in grades K-4.

Any student who is involved in damage to a school bus will be required to pay for the damage.

APPENDIX 2, STUDENT CONDUCT ON BUSES (Cont.)**BUS RIDER RULES**

Riding a school bus is a privilege and the privilege may be removed for not abiding by the bus rider rules.

Prior to loading, students should:

1. Be on time at the designated school bus stop.
2. Stay off the road while waiting for the bus.
3. Wait until the bus comes to a complete stop before boarding.
4. Respect other people and their property while waiting to board buses.

APPENDIX 2, STUDENT CONDUCT ON BUSES (Cont.)

13. Be courteous to fellow students and the bus driver.
14. Remain quiet when approaching a railroad crossing stop.

After leaving the bus, students should:

1. Before crossing the road, go ten feet in front of the bus. Stop, Look, and Listen and wait for bus driver's signal to cross.
2. Notify the principal in writing if you are going to be discharged at places other than your regular bus stop.

Extracurricular Trips

1. The above rules and regulations will be applied to all school-sponsored functions.
2. A sponsor will be appointed by the Superintendent.

TIPS FOR SAFE SCHOOL BUS RIDING

For a safe and enjoyable ride to and from school, follow these rules:

1. Leave home early enough to arrive at your bus stop on time.
2. Wait for your bus in a safe place well off the roadway.
3. Enter your bus in an orderly manner and take your seat.
